

# JCDP-180

## Blister Packing Machine

### QUICK DESCRIPTION

Advanced packaging capacity, suitable for food, pharmaceutical, stationery, cosmetics, hardware and other industries with large output. Mainly used for blister packaging of tablets, capsules, honey, tool chocolate and other products.

### TECHNICAL PARAMETER

Model	JCDP-180
Cutting Speed	25-50 times/min(AL-PVC)
Capacity	6000-14000 sheets /hour
Stroke Range	30-120 mm
Max. Forming Area	160×110mm
Max. Forming Depth	25mm
Power Supply and Total Power	380V 50Hz 8.5KW
Main Motor Power	3.8KW
Cooling system	Condensate or water cooler
Packing Material	Medicinal PVC (0.25-0.5)x1800mm PTP Alu-foil (0.02-0.035)x180mm
Machine Dimension (L×W×H)	3050x590x1550mm
Machine Weight	750Kg
