

JCT-340

Napkin / Facial Tissue Flexible Packaging Machine

QUICK DESCRIPTION

This machine is suitable for the film packaging of napkins and facial tissues. It is equipped with an orderly feeding device at the entrance, which can be directly connected to the log saw as one of the processes in the production line. Its maximum speed can reach 80ppm.

TECHNICAL PARAMETER

Model	JCT-200	JCT-340
Packing material	CPP film, PE film, BOPP film, OPP film	CPP film, PE film, BOPP film, OPP film
Packing specification(L*W*H)	100-210*80-210*20-100mm	150-340*80-340*20-100mm
Maximum packing dimensions	L210×W210×H100mm	L340×W340×H100mm
Packing speed	30-80 bags/minute	30-60 bags/minute
Film width	Max.350mm	Max.450mm
Film roll diameter	Max.350mm	Max.350mm
Total power	11.50KW	13KW
Power supply type	380V ,50/60Hz	380V ,50/60Hz
Machine noise	≤75dB	≤75dB
Air consumption	50-100L/min	80-160L/min
Main machine	L3870×W1450×H2100mm	L4200×W1650×2100
Conveying mechanism	L3800×W570×H760mm	L3800×W670×H760mm
Machine weight	2200Kg	2800Kg
